To Whom it May Concern

RE: Wellman Group Ltd

I have a number of properties mainly in North Auckland that I have contracted Shane and his team to renovate, and in many instances construct. This has involved conceptual work and for drawings to be prepared, management of a wide variety of subtrades i.e. earthmoving to tiling, and liaison with council.

It goes without saying I continue to be impressed mainly due to Shane's management of the projects. Their ability to meet my deadlines while always maintaining quality and a cheerful demeanor is a priceless quality in this industry.

For me personally, Wellman Group would have over the past eight years renovated over 12 homes for me ranging in value from \$200-500,000. I am pleased to say Shane is very accurate in his quoting and budgets have always been maintained. I have recommended Wellman Group to others and projects for acquaintances of mine would be of a substantial number, ranging from commercial fit outs to entire house renovations.

The quality of Wellman Groups work is of the highest standard, I honestly believe they have just simplified a process which for most people means long delays and over budget.

I am more than happy to recommend Wellman Groups work.

Kind regards

Dr Robert Brown
